

## Contents

### *Marine Chemistry, Vol. 57 (1997)*

#### *Research Papers*

- Evaluation of immobilized metal affinity chromatography (IMAC) for isolation and recovery of strong copper-complexing ligands from marine waters  
J.R. Donat, R.A. Kango and A.S. Gordon . . . . . 1
- Using  $^{234}\text{Th}$  disequilibria to estimate the vertical removal rates of polycyclic aromatic hydrocarbons from the surface ocean  
Ö. Gustafsson, P.M. Gschwend and K.O. Buesseler . . . . . 11
- Hydrolysis of peptides in seawater and sediment  
S. Pantoja, C. Lee and J.F. Marecek . . . . . 25
- Individual particle analysis of Western Mediterranean sediment cores, Rhône suspended matter and Sahara aerosols — Investigation of inputs to the sediments  
D. Węgrzynek, W. Jambors, R. Van Grieken and D. Eisma . . . . . 41
- Diffusivity of methyl bromide in water  
W.J. De Bruyn and E.S. Saltzman . . . . . 55
- Lipid biomarkers in the Conwy Estuary (North Wales, U.K.): a comparison between fatty alcohols and sterols  
S.M. Mudge and C.E. Norris. . . . . 61
- Concentration and composition of dissolved combined neutral sugars (polysaccharides) in seawater determined by HPLC–PAD  
N.H. Borch and D.L. Kirchman . . . . . 85
- The transformation of aragonite to  $\text{Mn}_x\text{Ca}(1-x)\text{CO}_3$  solid-solutions at 20°C: An experimental study  
M.E. Böttcher . . . . . 97
- New approach to evaluating dissolved iodine speciation in natural waters using cathodic stripping voltammetry and a storage study for preserving iodine species  
M.L.A.M. Campos. . . . . 107
- Sorption and sorption reversibility of cadmium on calcite in the presence of phosphate and sulfate  
R.D. van der Weijden, J. Meima and R.N.J. Comans . . . . . 119

#### *Book Reviews*

- Organotin — Environmental Fate and Effects*, by M.A. Champ and P.F. Seligman (Editors)—A. Gianguzza . . . . . 133
- Tributyltin: Case Study of an Environmental Contaminant*, by Stephen J. de Mora (Editor)—E.D. Goldberg. . . . . 134
- Announcement . . . . . 135

#### *Marine Chemistry Discussion Paper*

- What controls dissolved iron concentrations in the world ocean?  
K.S. Johnson, R.M. Gordon and K.H. Coale . . . . . 137

*Comments*

What controls dissolved iron concentrations in the world ocean? — a comment	
E. Boyle . . . . .	163
Control of dissolved iron concentrations in the world ocean: A comment	
W.G. Sunda . . . . .	169
What controls dissolved iron concentrations in the world ocean? — a comment	
G.W. Luther III and J. Wu . . . . .	173
What controls dissolved iron concentrations in the world ocean? Authors' closing comments	
K.S. Johnson, R.M. Gordon and K.H. Coale . . . . .	181

*Research Papers*

Pyrite formation under conditions approximating those in anoxic sediments: II. Influence of precursor iron minerals and organic matter	
J.W. Morse and Q. Wang . . . . .	187
Hydrography and local sources of dissolved trace metals Mn, Ni, Cu, and Cd in the northeast Atlantic Ocean	
P.M. Saager, H.J.W. de Baar, J.T.M. de Jong, R.F. Nolting and J. Schijf . . . . .	195
Investigation of Cd, Cu, Ni and <sup>234</sup> Th in the colloidal size range in the Gulf of Maine	
J.M. Greenamoyer and S.B. Moran . . . . .	217
Natural abundance-level measurement of the nitrogen isotopic composition of oceanic nitrate: an adaptation of the ammonia diffusion method	
D.M. Sigman, M.A. Altabet, R. Michener, D.C. McCorkle, B. Fry and R.M. Holmes . . . . .	227
Abundance, size distribution, and stable carbon and nitrogen isotopic compositions of marine organic matter isolated by tangential-flow ultrafiltration	
R. Benner, B. Biddanda, B. Black and M. McCarthy . . . . .	243
Fluorometric determination of ammonia in sea and estuarine waters by direct segmented flow analysis	
R. K��rouel and A. Aminot . . . . .	265
The determination of sulfide in seawater by flow-analysis with voltammetric detection	
R. Al-Farawati and C.M.G. van den Berg . . . . .	277
Determination of dissolved combined amino acids using microwave-assisted hydrolysis and HPLC precolumn derivatization for labeling of primary and secondary amines	
N.O.G. J��rgensen and R.E. Jensen . . . . .	287
Carbon cycling within the upper methanogenic zone of continental rise sediments: An example from the methane-rich sediments overlying the Blake Ridge gas hydrate deposits	
W.S. Borowski, C.K. Paull and W. Ussler III . . . . .	299
Spatial distribution, vertical profiles and budget of organochlorine compounds in Western Mediterranean seawater	
J. Dachs, J.M. Bayona and J. Albaig��s . . . . .	313
Submarine hydrothermal brine seeps off Milos, Greece: Observations and geochemistry	
M.F. Fitzsimons, P.R. Dando, J.A. Hughes, F. Thiermann, I. Akoumianaki and S.M. Pratt . . . . .	325
Arsenic speciation in shrimp and mussel from the Mid-Atlantic hydrothermal vents	
E.H. Larsen, C.R. Qu��tel, R. Munoz, A. Fiala-Medioni and O.F.X. Donard . . . . .	341
Reduction of iodate in seawater during Arabian Sea shipboard incubations and in laboratory cultures of the marine bacterium <i>Shewanella putrefaciens</i> strain MR-4	
A.M. Farrenkopf, M.E. Dollhopf, S.N. Chadhain, G.W. Luther III and K.H. Nealson . . . . .	347

*Technical Note*

Use of Poretics® 0.7 µm pore size glass fiber filters for determination of particulate organic carbon and nitrogen in seawater and freshwater	
S.M. Pike and S.B. Moran . . . . .	355

*Book Review*

"Dimethyl-��-propiothetin": From obscurity to centre stage in half a century, by R.P. Kiene, P.T. Visscher, M.D. Keller, G.O. Kirst — D. Kelly . . . . .	361
